What Kind of Care is Right For Me?

With eternalHealth, you have options if an emergency or unexpected illness occurs and you are unable to see your Primary Care Provider (PCP). Make the right choice to get quality, convenient care.

Emergency Care

Call 911 or head to the nearest emergency room if you are experiencing serious injuries and/or a life threatening illness such as breathing issues, poisoning, severe bleeding, chest pain, injuries, or sudden loss of consciousness. For less severe issues, consider your PCP or urgent care. If you are unsure, it's better to err on the side of caution and seek immediate medical attention.

Costs vary by plan.

Urgent Care

Urgent care centers are ideal for medical issues that require prompt attention but are not life threatening. Here are situations where you should consider urgent care over the emergency room:

- Minor cuts/Wounds
- Sprains/Strains
- Ear infections
- Colds
- Headaches
- Skin rashes
- UTIs
- Burns
- Nausea/Diarrhea
- Vomiting

Costs vary by plan.

24-Hour Nurse Hotline

Your eternalHealth plan includes a valuable 24-hour nurse hotline, designed to support you when health questions arise and your PCP office is closed. This resource is perfect for moments when you're unsure if your symptoms require immediate attention or you need advice on managing minor illnesses at home. This hotline can guide you on whether to seek urgent care, visit the ER, or wait to see your Primary Care Physician. Available round-the-clock, this service provides immediate access to professional medical advice at no additional cost. While not a substitute for emergency services, the nurse hotline offers peace of mind and expert guidance whenever you need it.

Your Prescription Drug (Part D) Benefit

Affordable Medication

We're dedicated to easing financial burden when it comes to essential medications. Almost all eternalHealth plans offer Tier-1 (Preferred Generics) prescription drugs at a \$0 copay, ensuring you have access to commonly needed medications without worrying about cost. We've eliminated deductibles on Tier 1 through Tier 3 drugs and to further lighten your load, you can now receive a full 100-day supply of your prescription drugs (Tiers 1 - 4). This extended supply helps prevent refill lapses and reduces pharmacy visits, saving you time and hassle.

Streamline Your Health Routine with Home Delivery

Imagine never running out of your vital medications or rushing to the pharmacy again. Our convenient mail order service brings your prescriptions right to your doorstep, saving you time and hassle. Enjoy the peace of mind that comes with a steady supply of your essential medications, often at reduced costs. It's healthcare that fits your lifestyle – because your well-being shouldn't be a chore. To place your first order log into your OptumRx Member portal at eternalHealth.com/PartD or call **1 (800) 891-6989 (TTY 711)** 24 hours, 7 days a week.

Understand Your Options

The Medicare Prescription Payment Plan is a voluntary option to manage out-of-pocket costs. It allows you to spread your drug expenses across the calendar year, receiving monthly bills in lower increments instead of paying in full at the pharmacy. While it doesn't reduce any of your costs, it can help with budgeting expenses, especially for any high drug costs early in the year. It's most beneficial for those with high or fluctuating drug costs. However, it may not be suitable for everyone, particularly those with low drug costs or those eligible for other assistance programs. The Prescription Drug (Part D) annual out-of-pocket maximum is capped at \$2,100 for 2026, regardless of participation in the M3P program. To elect into the M3P program log into your Optum Rx Member portal at eternalHealth.com/PartD or call **1 (800) 891-6989 (TTY 711)** 24 hours, 7 days a week.
